

Policies of the Director of Liquor Licensing

The Director has published many policies which relate to various aspects of conducting business under a liquor licence and the physical aspects of licensed premises. It is important for licensees and their managers to be fully aware of the policies relevant to their licences.

The policies may be revised, amended or replaced without notice. In the process they may impose greater obligations.

In a practical sense, the Director's policies have similar effect as legislation. There is an obligation on licensees to comply with policy requirements.

In many cases the policies provide guidance as to what is acceptable and unacceptable conduct for licensees, their staff and patrons.

Copies of the policies can usually be found on the licensing authority's internet web-site (<http://www.rgl.wa.gov.au/>).
